

Deepening Understanding

YR3 Paragraphs to Organise Writing

“When I’m reading, I’ve noticed that texts are split into smaller blocks of writing”.

“I’ve realised that too! They make it much easier for me to read!”

Look at a book you are reading and find examples of when the writer has started a new paragraph for:

- * a change in time*
- * a change in place*

Are there any other reasons why the writer starts a new paragraph?

(Support any points you make with evidence).
