YR3 Headings and Subheadings

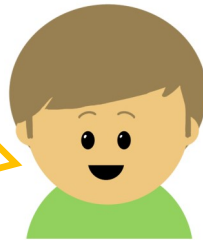

I've noticed that information texts often use headings and subheadings.

I've seen that too Millie! Why do you think they use headings and subheadings?

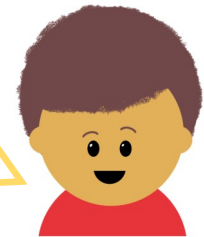

I'm not 100% sure. What subheadings do you think you would see within a text about tigers?

Jerry, I've just seen these subheadings:

Skeleton, Muscles,
Circulation and Skin.

What might they be for?

With a partner, discuss your thoughts on the children's conversations.

Challenge: Think of a topic and write appropriate headings and subheadings for it. Compare with your peers - do you have any similar ideas? What's different?
