

## WOW moments across the school!

*"Pupils enjoy coming to St Joseph's Catholic Primary School. They find lessons interesting. Pupils are eager to talk about their learning. They feel safe to make mistakes and to learn from them" OFSTED March 2023*

Here is just a snap shot of the exciting, wonderful work and activities from each class this month.

### **St Teresa - Miss Just**

We had the best Beach Experience Day. We dressed up in our beach clothes, ate fish and chips and ice cream with strawberry sauce, had a sandcastle building competition and took a dip in the water!

In PE we have had so much fun learning some new skills playing Tag Rugby.

Lucia: "It was so fun."

Sophia: "It was different to other ball games. I loved it!"

Jaden: "It was amazing as you get to run around and get people's tags."

### **St Aldhelm - Miss Thomson**

We have been having a great term! The children enjoyed a seasonal walk to enrich their English learning - and of course a quick play in the park just for fun. We have taken learning outside the class and been enjoying using our carpet space and fluid approach to support understanding across the years.

### **St Carlo Acutis - Mr Wilkinson**

We have had a fantastic start to this term with some really fun and engaging lessons.

In RE we have been researching and collecting information about the different covenants that have been made with God.

In History we have been looking at the development of transport within the UK since 1066. In class the children took part in a fun timeline activity where they had to stand in the time period that they thought each transport started to become popular.

In computing we have been coding. During one of our lessons, the children were asked to create a physical system to simulate traffic lights and how they would need to be coded in order to work effectively.

Lilly - "I liked having the opportunity to research the covenants in different ways."

Ellie - "I liked finding out how close or far away we were from the correct period of time in our timeline activity."

Jessie - "I enjoyed figuring out how to code the traffic lights using our algorithms."

## St Joseph's Nursery

Our nursery is full of fun! Painting, climbing, play dough, baking, planting, exploring and lots of cheeky smiles. Sometimes we are so busy we fall fast asleep after our yummy lunch! The children are settling well and are loving being busy and learning through play.
